Improving the quality, safety and integrity of health care.

How we make it easy

The average physician assistant must produce documentation of their medical credentials numerous times over the course of their career. Instead of you having to reproduce this documentation over and over again, FCVS does all the work for you.

FCVS obtains direct, primary source verification of identity, academic education, PA program education, postgraduate training, NCCPA Certification/Examination History, and board action history. This repository of information allows a physician assistant to establish a confidential, lifetime professional portfolio that can be forwarded at the physician assistant's request to any interested party.

Some Benefits of Using FCVS

- | | | | | |
|----------------|--------------------------------|----------------------------|-----------------------|----------------------------|
| • Easy | • Primary source | • Rigorous quality control | • Cost efficient | • Professional memberships |
| • High quality | • We do all the work | • Verification | • State licensure | |
| • Convenient | • We obtain original documents | • Core credentials | • Hospital privileges | • Efficient |
| • Permanent | | • Quick | • Employment | • Confidential |

The Federation Credentials Verification Service (FCVS) has been providing a permanent, lifetime portfolio of primary-source verified physician core credentials to state medical boards for more than eight years. As a service of the Federation of State Medical Boards, we maintain core credentials on more than 45,000 physicians, and that number continues to grow rapidly.

Now the ease and efficiency of FCVS is available to Physician Assistants.

What does this mean to you? Quick, easy and inexpensive access to medical credentials that can be used throughout your career for state licensure, hospital credentialing, employment and professional memberships.

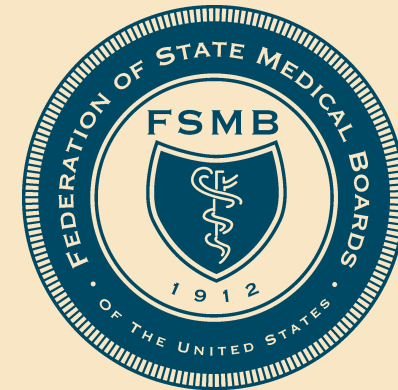

FCVS — The Trusted Source for Credentials Verification

Established in 1912, the Federation of State Medical Boards is a nationally recognized and trusted source for sensitive physician and physician assistant information. In response to emerging issues within the medical field that have resulted in greater practitioner mobility and demand for increased license portability, the Federation created the Federation Credentials Verification Service (FCVS). Its purpose... to provide a high quality, efficient and professional service for individual physicians who need to collect or send verification of academic and professional credentials.

Why you should be using FCVS!

- We obtain primary source verification.
- We're faster (once you've established your credentials).
- We're more convenient.
- State boards accept the FCVS profile for licensure purposes.

Visit our Web site at www.fsmb.org to find out how we can help get you started, or call toll free at 888-ASK-FCVS to talk to one of our highly-trained representatives.

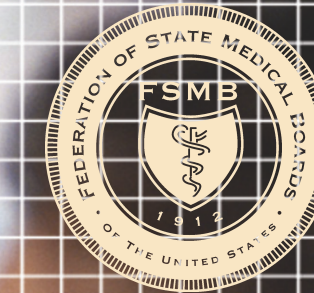

FCVS = High Quality and Convenience

Quality

- FCVS obtains primary source verification
- FCVS obtains original documents for credentials verification
- FCVS's highly trained staff maintain a rigorous quality control process that ensures accuracy and efficiency

Convenience

- At your request, FCVS will submit your profile with images of primary source documents to any entity
- You can log on to our website at any time to check the status of your profile
