

FEDERATION OF
STATE MEDICAL BOARDS

International Medical Graduates GME Requirements
Board-by-Board Overview

- 36 states + DC, GU, MP may grant credit towards accredited GME requirements to IMG applicants that meet certain criteria (such as being specialty board certified, licensed in another state, ECFMG certified, or doing GME internationally, etc.)
 - 26 states + DC, GU, and MP may grant licenses to IMG applicants **without** completing accredited GME
 - 24 of these jurisdictions have “additional pathways” for IMG applicants to become fully licensed without being licensed in another state or being specialty board certified (AR, FL, IA, ID, IL, IN, KY, LA, MA, MN, NE, NC, NV, OK, OR, RI, TN, TX, VA, WA, WI, and WV + GU, MP).
- 14 states + PR, and VI do not accept credit towards accredited GME requirements for IMG applicants

‡ Note: Many states allow for accredited GME requirements to be waived *if the applicant is specialty board certified, or specialty board-eligible*. However, the American Board of Medical Specialties (ABMS) [lists](#) its requirements for Board certification as the following:

1. Finish four years of premedical education in a college or university;
2. Earn a medical degree (MD, DO or other credential approved by an ABMS Member Board) from a qualified medical school;
3. **Complete three to seven years of full-time experience in an ACGME-accredited residency training program;**
4. Provide letters of attestation from the program director and/or faculty; and
5. Obtain an unrestricted medical license to practice medicine in the United States or Canada.

So, an applicant *must* complete an ACGME-accredited residency *and* be licensed to practice medicine in either the U.S. or Canada to be specialty board eligible.

*Note: All osteopathic boards require applicants to have graduated from [American Osteopathic Association \(AOA\)-approved medical schools](#), which are all located in the United States.

SMB	License can be granted w/o accredited GME	May grant credit to GME reqs. to applicants that meet certain criteria	Detail	Citation	Minimum amount of accredited GME required for licensure
AK	No	No	All other applicants for a certificate of qualification who graduated from a college of medicine not accredited by the LCME or a college of osteopathy not accredited by the COCA shall present evidence satisfactory to the board that the applicant has completed 3 years of postgraduate or residency training in any of the following programs...	Ala. Code § 34-24-70	3 years
AL	No	No	All other applicants for a certificate of qualification who graduated from a college of medicine not accredited by the LCME or a college of osteopathy not accredited by the COCA shall present evidence satisfactory to the board that the applicant has completed 2 years of postgraduate or residency training ...	SB 155 (2023)	2 years

AR	Yes	Yes	Served three (3) years as an intern or resident in a postgraduate medical education program outside the United States, completed all steps of the USMLE, obtained ECFMG certification, and either completed one (1) year or more of fellowship training accredited by the ACGME in the United States or received ABMS certification by the ABMS; or (3) Completed one (1) year as an intern or resident in an accredited postgraduate medical education program in the United States and be currently enrolled in an accredited postgraduate medical program in Arkansas.	AR Code § 17-95-403 (2020)	None if additional licensure pathway is followed, 1 year if certain conditions are met, including enrollment in AR medical program or specialty board certification, 3 years if not
			Signed into law April 22, 2025, SB 601 requires the foreign medical graduate's medical school be approved by ECFMG instead of the Board (ASMB) and creates a pathway to licensure for FMGs without foreign or domestic (ACGME-accredited) PGT (as prescribed by Ark. Code § 17- 95-403(b)(3)(iii)(b)) for applicants that have: been offered full-time employment as a physician from an Arkansas healthcare provider, defined as an entity "licensed or certified to provide healthcare services... by the ASMB" in an underserved or health professional shortage area; an active, unencumbered license to practice medicine in a foreign country; actively practiced medicine during the four year period preceding their application; credentials evaluated by the ECFMG; ECFMG certification; and "pass the exam used by the ECFMG" (USMLE Steps 1 & 2 and the Occupational English Test (OET) Medicine). After two years of practice under the provisional license, the licensee is eligible for a full, unrestricted license	SB 601 (2025)	
AZ	No	Yes	A. In addition to the requirements for licensure prescribed in sections 32-1422 and 32-1423, an applicant for licensure under this article who attended a foreign school of medicine and successfully completed all the formal requirements to receive the degree of doctor of medicine except internship or social service, and is accordingly not eligible for certification by the ECFMG, may be considered for licensure under this chapter if the applicant meets the following conditions: 1. Satisfactorily completes an approved fifth pathway program of one academic year of supervised clinical training under the direction of an approved school of medicine in the United States. 2. Successfully completes an approved twenty-four month internship, residency or clinical fellowship program upon completion of the fifth pathway program.	Ariz. Rev. Stat. § 32-1424 R4-16-201: Application for Licensure	2 years with ECFMG certificate, 3 years without
CA	No	No	In addition to other requirements of this chapter... shall show by evidence satisfactory to the board that the applicant has received credit for at least 12 months of board-approved postgraduate training for graduates of medical schools in the United States and Canada or 24 months of board-approved postgraduate training for graduates of foreign medical schools approved by the board pursuant to Section 2084 other than Canadian medical schools...	CA Bus & Prof Code § 2096	None for temporary licensure through MPP 2 years for full licensure
			*California's Physicians from Mexico Pilot Program (MPP) offers nonrenewable licenses, 3 years in duration, to up to 30 Mexican physicians at a time – not an unrestricted license. Signed into law September 17, 2025, SB 160 removes the existing board review course requirement for applicants while still mandating an interview exam developed by National Autonomous University of Mexico (UNAM) for each specialty area.	AB 1045 (2002) SB 160 (2025)	
CO	No	No	For international medical graduates, the board shall require one year of postgraduate clinical training approved by the board. An applicant whose international medical school is not an approved medical college is eligible for licensure at the discretion of the board if the applicant meets all other requirements for licensure and holds specialty board	Colo. Rev. Stat. § 12-240-114	1 year

SMB	License can be granted w/o accredited GME	May grant credit to GME reqs. to applicants that meet certain criteria	Detail	Citation	Minimum amount of accredited GME required for licensure
			certification, current at the time of application for licensure, conferred by a regular member board of the ABMS/AOA...		
CT	No	No	(ii) received certification from the ECFMG; (2) has successfully completed not less than 2 years of progressive graduate medical training as a resident physician in a program accredited by the ACGME, the AOA or an equivalent program approved by the board with the consent of the department	Conn. Gen. Stat. § 20-10	2 years
DC	Yes	Yes	The Board may grant a license to practice medicine to an applicant educated in a foreign country who: ... An applicant under this section shall be certified by the ECFMG. An applicant under this section shall complete three (3) years of postgraduate clinical training in a program or programs approved by the Accreditation ACGME or the AOA. For applicants who hold or have held an unrestricted medical license in another state , or who hold [ABMS/AOA] Board certification, the Board may find that: (a) A non-ACGME or non-AOA approved postgraduate clinical training program is substantially equivalent to the requirements of an ACGME or AOA program and meets the educational requirements...; and (b) Significant clinical practice in addition to at least one year of post-graduate clinical training is substantially equivalent to and meets the educational requirements of § 4603.5."	D.C. Mun. Regs. tit. 17, § 4603	None or one year if licensed in another state and other conditions are met, 3 years if not
DE	No	No	c. A degree of Doctor of Medicine or Doctor of Osteopathy, or an equivalent degree, from a legally incorporated medical college or school located in a country other than the United States or Canada, which medical college or school is not listed in the International Medical Education Directory (IMED), but the applicant has completed 3 years of postgraduate training in a residency program which has been approved by the ACGME and has successfully passed the examination administered by the ECFMG and the FSMB.	Del. Code tit. 24, § 1720	3 years
FL	Yes	Yes	(f) Meets one of the following medical education and postgraduate training requirements: ... 2.a. Is a graduate of an allopathic foreign medical school registered with the WHO and certified pursuant to s. 458.314 as having met the standards required to accredit medical schools in the United States or reasonably comparable standards; ... c. Has completed an approved residency of at least 1 year . 3.a. Is a graduate of an allopathic foreign medical school which has not been certified... c. Has completed an approved residency of at least 1 year; however, after October 1, 1992, the applicant shall have completed an approved residency or fellowship of at least 2 years in one specialty area . However, to be acceptable, the fellowship experience and training must be counted toward regular or subspecialty certification by a board recognized and certified by the ABMS.	Fla. Stat. § 458.311	None if additional licensure pathway is followed, 1 year if IMG attended WHO-certified medical school, 2 years if not
			On March 21, 2024, SB 7016 was signed into law, which allows IMGs that completed "substantially similar" PGT in their home country, have ECFMG certification, have an active license in good standing, have practiced for at least the last four years preceding application, and have an offer of employment in the state to be provisionally licensed. After two years of practice in good standing, it is implied that the license can be converted to full.	SB 7016 (2023)	
GA	Yes	Yes	Persons who graduated after July 1, 1985, from medical schools or osteopathic medical schools which are not approved by the board must complete 3 years of residency, fellowship, or other postgraduate medical training that is approved by the ACGME, the AOA, or the board to be eligible for a license to practice medicine in this state. Current certification of any applicant by a member board of the ABMS may be considered by	Ga. Code Ann. § 43-34-26	None if specialty board certified, 3 years if not ‡ See page 1 note

SMB	License can be granted w/o accredited GME	May grant credit to GME reqs. to applicants that meet certain criteria	Detail	Citation	Minimum amount of accredited GME required for licensure
			the board as evidence that such applicant's postgraduate medical training has satisfied the requirements of this paragraph...		
GU	Yes	Yes	Such applicants shall possess the degree of Doctor of Medicine or Osteopathy, Bachelor of Medicine or Osteopathy, or a Board-approved equivalent based on satisfactory completion of educational programs acceptable to the Board... (f) The Board shall be authorized to establish regulations requiring all such applicants to satisfactorily complete at least thirty-six (36) months of Board approved, progressive postgraduate medical training.	Guam Code Ann. § 12206 Guam R.R. § 10404	None if additional licensure pathway is followed, 3 years if not
			Enacted April 7, 2026 206-38 amends existing code to authorize the Board, with DPHSS, to grant full licenses to foreign medical graduates (FMGs) that hold a medical degree, are eligible for unrestricted licensure in the country where they trained, completed 36 months of Board-approved postgraduate training, passed a Board-acceptable exam that assesses basic medical knowledge, obtained ECFMG certification, and demonstrated English or Chamorro language competency. Preference is given to applicants who commit to serving at least three years in Guam public health facilities, and the Board is empowered to define acceptable postgraduate training, designate credentialing bodies such as WDOMS and ECFMG, and adopt additional rules to recruit FMGs—particularly in specialties where Guam lacks adequate provider coverage.	206-38 (COR)	
HI	No	No	No applicant shall be eligible for the examination sooner than the first year of residency; provided that if the applicant is a graduate of a foreign medical school, the applicant shall be eligible no sooner than the second year of residency .	Haw. Rev. Stat. § 453-4	2 years
IA	Yes	Yes	c. Satisfactory evidence that the applicant has successfully completed one year of postgraduate internship or resident training in a hospital approved for such training by the board. An applicant who holds a valid certificate issued by the ECFMG shall submit satisfactory evidence of successful completion of 2 years of such training . An applicant who is a graduate of an international medical school shall have successfully completed 24 months of such training... For those required to have 24 months of training, the program shall have been 24 continuous months of progressive training in not more than two specialties and in not more than two programs approved for resident training by the board.	Iowa Code § 148.3 Iowa Admin. Code r. 653—9.3(147,148)	None if additional licensure pathway is followed, 2 years if not
			On May 3, 2024, SF 277 was signed into law, effective January 1, 2025; which allows the Board to grant provisional licenses to IMGs that graduate from a foreign medical schools evaluated by the ECFMG, are licensed and in good standing in their home country for the immediately preceding five years, without pending disciplinary action, have completed a residency or “substantially similar” PGT in their resident country, have practiced for at least five years following their PGT, possess basic English fluency and Federal immigration status, have an offer of employment at an Iowa health care facility, and have passed the USMLE (which steps not explicitly mentioned). The provisional license may be converted to a full license after three years of practice in good standing and without violation, among other requirements.	SF 277 (2024)	
ID	Yes	Yes	Original documentation of successful completion of two (2) years of progressive postgraduate training at one (1) training program accredited for internship, residency, or fellowship training by the ACGME, AOA or the RCPS or its successor organization, provided however, a resident who is attending an Idaho based residency program may be licensed after successful completion of one (1) years of progressive post graduate	IDAPA 24.33.01.051	None if additional licensure pathway is followed, 1 year with contract to finish 2 nd year of

SMB	License can be granted w/o accredited GME	May grant credit to GME reqs. to applicants that meet certain criteria	Detail	Citation	Minimum amount of accredited GME required for licensure
			training, if the following conditions are met: ... Signed written contract with the Idaho residency program to complete the entire residency program...		residency in state, 2 years if not
			On March 28, 2024, H 542 was signed into law, which allows non-American or Canadian IMGs that completed PGT in their home country, have an active license in good standing, practiced at least 3 years post-PGT or practiced 500+ hours, passed USMLE Steps 1 & 2, and have an offer of employment in the state to be provisionally licensed. After three years of practice in good standing, the license is eligible to be converted to full.	H 542 (2024)	
IL	Yes	Yes	(b) that the applicant is a graduate of a medical or osteopathic college located outside the United States, its territories or Canada... has completed 24 months of postgraduate clinical training , as approved by the Department.	225 ILCS 60/11	None if additional licensure pathway is followed, 2 years if not
			On June 16, 2023, SB 1298 was signed into law, which allows the Department of Financial and Professional Regulation (IDFPR) to issue limited licenses to qualified IMGs, pursuant to forthcoming rules. On January 14, 2025, IDFPR duly promulgated rules, which define eligible IMGs as medical graduates trained outside the U.S. whose education has “been certified by the ECFMG,” having passed all steps of the USMLE, an unencumbered license from another country, and not licensed to practice medicine in the U.S. Applicants must also provide an official transcript and diploma, their ECFMG certificate (waivable if the applicant hails from a “non-cooperating country”), have practiced in at least three of the last 10 years, and if the applicant has not practiced within the last three years, they must show evidence of U.S. clinical experience, submit to a background check, and enter into an agreement with a sponsoring entity, that “provides an assessment and evaluation program designed to develop, assess, and evaluate the physician’s nonclinical and clinical skills and familiarity with standards appropriate for medical practice.” After at least two years of limited practice and two more of restricted practice in a HPSA, (at least four years total), the licensee is eligible to apply for a full, unrestricted medical license.	SB 1298 (2023) IDFPR 1/25 Rules	
IN	Yes	Yes	(1) has been graduated from a medical school outside the United States, its possessions, or Canada; and (2) submits evidence satisfactory to the board that prior to passing the examination the applicant has successfully completed a minimum of at least two (2) years of postgraduate training in a hospital or an institution located in the United States or Canada which meets the standards... (b) Notwithstanding subsection (a), the board may waive the second year of postgraduate training in the United States or Canada required of a graduate of a foreign medical school.	IC 25-22.5-3-2	None if additional licensure pathway is followed, 1 year possible based on Board discretion, typically 2 years
			On May 6, 2025, HB 1555 was signed into law, effective July 1, 2025; which authorizes the Board to issue a limited license to an ITP that pays a \$100 application fee; has a medical doctorate or substantially similar degree from an international medical program in good standing as determined by the Board; has ECFMG certification; is in good standing with the medical licensing or regulatory institution in their country of practice and has no pending discipline; completed a residency, clinical training, or PGT “substantially similar, as determined by the Board” to those ACGME-accredited; has practiced medicine or osteopathic medicine for at least five years of the last six years preceding application; passed all Steps of the USMLE; has Federal immigration status; is proficient in English; and has a written offer of employment at a health care facility, defined as a	HB 1555 (2025)	

SMB	License can be granted w/o accredited GME	May grant credit to GME reqs. to applicants that meet certain criteria	Detail	Citation	Minimum amount of accredited GME required for licensure
			hospital, birthing center, or “other medical facility,” in an underserved area, which are designated by the Dept. of Health; and that facility both agrees to sponsor and supervise the provisional licensee. The limited license must be renewed biennially and is valid for six years . After a minimum of five years , the limited license may be converted to full at the discretion of the Board.		
KS	No	No	Each applicant for licensure by examination in medicine and surgery or osteopathic medicine and surgery who graduates from an accredited or unaccredited school of medicine on or after January 1, 2021 shall present to the board proof of completion of at least 36 months of a postgraduate training or residency training program...	Kan. Stat. Ann. § 100-6-2	3 years (min. 2 years in ACGME approved program)
KY	Yes	Yes	Pursuant to KRS 311.571(1)(d), an applicant for a regular license shall have satisfactorily completed: (a) At least two (2) years of prescribed courses of postgraduate training in accordance with this administrative regulation...	201 KAR 9:021	None if additional licensure pathway is followed, 2 years if not
			On April 10, 2026, SB 137 was signed into law, effective July 9; which authorizes the Board to issue a provisional license to a qualifying ITP that has: English proficiency; graduated from a medical or osteopathic school or college outside the U.S. or Canada and “approved by the Board;” completed a residency or substantially similar postgraduate medical training; practiced as a physician for at least five years; good license standing in their licensing country within the last five years; completed an examination “prescribed by the Board;” an ECFMG certification or U.S. specialty board certification; and an employment offer as a physician with a sponsor that is a “professional practice, healthcare entity, or corporation that operates and is licensed in the Commonwealth.” After three years of practice under the provisional license with the employing sponsor, the licensee’s license <i>automatically</i> converts to a full, unrestricted license. The Board is authorized to revoke the provisional license if the licensee ceases practice with a qualifying employer, or engaged in unprofessional conduct delineated in KRS § 311.595 . The Board is also empowered to set examination requirements.	SB 137 (2026)	
LA	Yes	Yes	To be eligible for a license, an international medical graduate applicant shall: ... 4. have completed at least 3 years of postgraduate clinical training in the United States or in Canada in a medical residency or equivalent program accredited by the ACGME of the AMA, or by the RCPS of Canada, and approved by the board.	La. Admin. Code tit. 46. § 323	None if additional licensure pathway is followed, 3 years if not
			On June 11, 2024, HB 972 was signed into law, effective August 1, 2024; which allows the Board to issue licenses to IMGs that hold a medical degree from an international medical program that is “substantially similar” to the education or training required to practice in the state, have a license in good standing, have completed a residency or similar PGT in their licensing country, or have at least five years’ experience as a practicing physician, have citizenship in the U.S. or Canada, or legal work status in the U.S., as well as English proficiency, and an offer of employment at a facility owned or operated by state-licensed hospitals. Licensees can only practice at these facilities for the first two years of their licensure but “after such time the licensee is no longer subject to this limitation,” and the Board can revoke the license with “clear and convincing evidence” that services rendered violated medical safety, competency, or conduct standards established by the Board.	HB 972 (2024)	
MA	Yes	Yes	Each applicant for a full license must have satisfactorily completed at least 2 years of postgraduate medical training in an ACGME or AOA approved or accredited Canadian program. Effective January 1, 2014, each applicant for a full license must have	243 CMR 2.03	None if additional licensure pathway is followed, 3 years

SMB	License can be granted w/o accredited GME	May grant credit to GME reqs. to applicants that meet certain criteria	Detail	Citation	Minimum amount of accredited GME required for licensure
			satisfactorily completed at least 3 years of postgraduate medical training in an ACGME or AOA approved or accredited Canadian program...		of ACGME-accredited GME if not
			On November 20, 2024, H 5100 was signed into law, which establishes a limited license for internationally trained physicians (ITPs) who hold an ECFMG certificate (unless exempt), have passed USMLE Steps 1 and 2, earned a WHO-recognized medical degree, practiced at least one year, and secured an agreement with a board-approved facility such as a FQHC, CHC, or hospital to assess their nonclinical skills. The one-year license, renewable once, can lead to a two-year restricted license—renewable once—for practice in physician shortage areas without postgraduate clinical training, allowing independent practice in board-approved specialties. After two or more years of restricted practice (three to six years total), licensees may apply for full, unrestricted licensure.	H 5100 (2024)	
MD	No	No	(3) Have a doctor of medicine degree from any other medical school, have successfully completed the requirements for and obtained ECFMG certification, and have successfully completed 2 years of post-graduate training at an accredited training program...	Md. Code Regs. 10.32.01.03	2 years
ME	Yes	Yes	2. Postgraduate training... Each applicant who has graduated from an accredited medical school on or after July 1, 2004 or an unaccredited medical school must have satisfactorily completed at least 36 months in a graduate educational program accredited by the ACGME, the Canadian Medical Association, the RCPS or the Royal Colleges of England, Ireland or Scotland ... The board may waive the requirements of subsection 2 for a physician who does not meet the postgraduate training requirements but who meets the requirements of this subsection. (1) Be a graduate of a foreign medical school, not including a medical school in Canada or Great Britain; (2) Be licensed in another state ; and (3) Have at least 3 years of clinical experience in the area of expertise. B. If the physician meets the requirements of paragraph A, the board shall use the following qualifications of the physician to determine whether to grant a waiver: (1) Completion of a 3-year clinical fellowship in the U.S. in the area of expertise. The burden of proof as to the quality and content of the fellowship is placed on the applicant; (2) Appointment to a clinical academic position at a licensed medical school in the United States; (3) Publication in peer-reviewed clinical medical journals recognized by the board; (4) The number of years in clinical practice; and (5) Other criteria demonstrating expertise, such as awards or other recognition	Me. Stat. tit. 32. § 3271	None if completed GME in selected countries, or licensed in another state, and myriad of other qualifications are met, 3 years if not
MI	No	No	Certification of Completion of a minimum of 1 year postgraduate clinical training	Medical Doctor Licensing Guide	1 year
MN	Yes	Yes	(d) The applicant shall present evidence satisfactory to the board of the completion of one year of graduate, clinical medical training in a program accredited by a national accrediting organization approved by the board or other graduate training approved in advance by the board as meeting standards similar to those of a national accrediting organization. This requirement does not apply: (1) to an applicant who is admitted as a permanent immigrant to the United States on or before October 1, 1991, as a person of exceptional ability in the sciences ... or (2) to an applicant holding a valid license to practice medicine in another country and issued a permanent immigrant visa after	Minn. Stat. § 147.037	None , if applicant qualifies as “as a person of exceptional ability in the sciences,” OR the additional licensure pathway

SMB	License can be granted w/o accredited GME	May grant credit to GME reqs. to applicants that meet certain criteria	Detail	Citation	Minimum amount of accredited GME required for licensure
			October 1, 1991, as a person of extraordinary ability in the field of science or as an outstanding professor or researcher... Enacted June 14 and effective January 1, 2026, authorizes the Board to issue a nonrenewable, two-year limited license to internationally trained physicians who meet education, ECFMG certification, immigration, and competency requirements; have five years of recent practice abroad; pass USMLE or COMLEX Steps 1 and 2 within three attempts; and secure a collaborative practice agreement in a rural or underserved community. Applicants are not required to complete U.S. graduate medical training. Employers must provide malpractice coverage, resident-equivalent pay, and a non-retaliatory work environment. After two years in good standing, meeting minimum practice hours, passing Step 3 within three attempts, completing CME, and securing a physician recommendation, licensees may obtain full licensure. Licensees must report employment and disciplinary status regularly, and the Board may suspend or revoke licenses for violations or loss of employment.	HF 2 (2025)	is followed, one year if not.
MO	Yes	Yes	An applicant must be certified by the ECFMG and have completed three (3) years of AMA-approved postgraduate training in one (1) recognized specialty area of medicine. The board may waive the three (3) years of postgraduate training if the applicant is American Specialty Board eligible. ECFMG certification may be waived for a foreign graduate who is currently certified by the ABMS.	Mo. Code Regs. tit. 20 § 2150-2.100	None if specialty board eligible, 3 years if not ‡ See page 1 note
MP	Yes	Yes	Enacted in January 2025, authorizes the Board to issue a [provisional] license to an ITP that is eligible to live and work in the Commonwealth, have graduated from a medical school listed in the WDMS, completed at least three years of postgraduate training (internship or residency) in a program accredited by ACGME, FMRAC, RSCPC, or another Board-approved program, passed the national specialty exam in their licensing country, hold an unrestricted active license with at least two years of practice, provide a recent Letter of Good Standing from their licensing authority, demonstrate English proficiency (e.g., OET), and have good moral character with no convictions related to moral turpitude or medical practice. The provisional license is valid for three years and may be renewed or extended with Board approval, and licensees must practice within their training and experience under a supervisor in accordance with CHCC or other clinic bylaws.	P.L. No. 23-33 (2025) Proposed Rules (2025)	None if additional licensure pathway followed
MS	No	Yes	D. Applicants who graduated from an international medical school must present documentation of having completed either: 1. three (3) or more years of ACGME-approved postgraduate training in the United States or training in Canada approved by the RCPSC; or 2. one (1) year of ACGME-approved postgraduate training in the United States or training in Canada approved by the RCPSC, be currently board certified by a specialty board recognized by the ABMS and must have approval by the Board.	Miss. Code R. 2605	1 year if specialty board certified, 3 years if not ‡ See page 1 note
MT	Yes	Yes	(1) A license will not be granted to a foreign medical graduate unless: ... (b) the graduate has had 3 years of postgraduate training education in a program approved by or affiliated with the World Health Organization and has sufficient fluency in spoken and written English to practice medicine with reasonable skill and safety; or (c) the graduate has been granted board certification by a specialty board which is approved by and a member of the ABMS or the AOA, or provides verification of being a certificant of the CFPC, a fellow of the RCPS...	Mont. Admin. R. 24.156.607	None if applicant has specialty board certification, 3 years if not ‡ See page 1 note
NC	Yes	Yes	To be eligible for licensure under this section, an applicant who is a graduate of a medical school not approved by the LCME, the Committee for the Accreditation of Canadian	N.C. Gen. Stat. § 90-9.2	None if additional licensure pathway

SMB	License can be granted w/o accredited GME	May grant credit to GME reqs. to applicants that meet certain criteria	Detail	Citation	Minimum amount of accredited GME required for licensure
			Medical Schools, or the AOA shall submit proof satisfactory to the Board that the applicant has met all of the following: (1)The applicant has successfully completed 2 years of training in a medical education program approved by the Board after graduation from medical school, or provides proof of current certification by a specialty board recognized by the ABMS, Certificate of the College of Family Physicians, Fellowship of the RCPS... On July 1, 2025, SB 67 was signed into law, which authorizes the Board to issue an “internationally-trained physician (ITP) employee license” to qualified foreign-trained physicians with recent full-time job offers in rural hospitals or practices with on-site supervision. Applicants must hold or have recently held a foreign license in good standing, meet education and postgraduate training or extensive practice requirements, demonstrate competency through approved exams or assessments, meet character, background, English proficiency, and work authorization standards, and have at least five years of practice experience. Licensees may practice only at qualifying facilities, with violations subject to penalties, and remain licensed while employed there or until receiving another state license. After four years in good standing, they must be granted full licensure if no disciplinary, legal, or professional issues exist. The Board must adopt implementing rules, may set license time limits, and must collect and report data on applications, approvals, complaints, and pathway completions.	SB 67 (2025)	followed or specialty board certified, 2 years if not ‡ See page 1 note
ND	No	Yes	Graduates of international schools ... An applicant who has graduated from a medical school not located in the United States, its possessions, territories, or Canada, must present evidence, satisfactory to the board, that the applicant has successfully completed thirty months of postgraduate training in a program located in the United States, its possessions, territories, or Canada, and accredited by a national accrediting organization... However, if such an applicant has not completed thirty months of postgraduate training in a program approved by the board or by an accrediting body approved by the board, but has met all other licensing requirements and has successfully completed one year of postgraduate training in the United States or Canada in a program approved by the board, and if the board finds that the applicant has other professional experience and training that is substantially equivalent to the last eighteen months of postgraduate training, then the applicant may be deemed eligible for licensure... An applicant seeking licensure under this exception must present evidence satisfactory to the board that: (1) The applicant is certified by a specialty board recognized by the ABMS or by a specialty board recognized by the RCPS; or (2) The applicant has passed the special purpose examination	N.D. Cent. Code § 43-17-18	1 year if ABMS or other specialty board certified or passed the SPEX exam, plus Board approval. 30 months if not. ‡ See page 1 note
NE	Yes	Yes	Official documentation showing: Successful completion of 2 years of approved graduate medical education Enacted April 14 and operative August 1, 2027, authorizes DHHS, with the Board, to issue a provisional license to ITPs who graduate from an ECFMG-recognized foreign medical school, complete postgraduate training substantially similar to a U.S. residency, hold recent foreign licensure with at least three of the past five years in practice, ECFMG certification, no pending discipline, have passed USMLE Steps 1 and 2, possess valid immigration status, meet any additional board requirements, and have an employment offer from an approved health care entity (such as an FQHC or hospital) that conducts a needs assessment, develops an individualized learning and supervision plan, and regularly evaluates the physician. The provisional license is valid for up to three years	Medicine And Surgery Guidelines LB 1212 (2026)	None if additional licensure pathway followed or specialty board certified, 2 years if not
