On January 28, HHS announced the fifth amendment to the Public Readiness and Emergency Preparedness (PREP) Act, authorizing any healthcare provider who is licensed or certified in a state to prescribe, dispense, or administer COVID-19 vaccines in any other state or U.S. territory. The amendment also authorizes any physician, registered nurse, or practical nurse whose license or certification expired within the past five years to partake in the immunization effort, but first must complete a CDC Vaccine Training and an on-site observation period by a currently practicing healthcare professional.

| Arizona     | The Arizona Medical Board (AMB) announces the following available temporary emergency licenses for Physicians (MDs) to practice in Arizona and the extension of the time frame for | AMB Guidance |
renewal of MD licenses during the COVID-19 State of Emergency: ... The AMB will convert an inactive license to a temporary active license using the temporary emergency license application if: (1) The physician has been on an inactive status for 4 years or less. (2) The physician submits an attestation that they have the physical and mental capability to safely practice medicine.

- **Status** – Active through the COVID-19 emergency.

### Arkansas

- [No information found]

### California

- Reinstatement of inactive/retired licenses (who have been retired or inactive for five years or less) without the CME or other requirements and an abbreviated license application to bring these practitioners into the workforce quickly.
- On March 30, Gov. Newsom launched a major initiative to expand California’s health care workforce and recruit health care professionals to address the COVID-19 surge. Health care professionals with an active license, public health professionals, medical retirees, medical and nursing students, or members of medical disaster response teams in California are all encouraged to join the new California Health Corps.
- **DCA Waiver DCA-20-02 Reinstatement of Licensure** allows licensees to temporarily restore an inactive or retired license without having to pay any fees or complete, or demonstrate compliance with, any continuing education requirements for up to six months. A licensee with a cancelled status that was voluntarily surrendered during the last five years not relating to a disciplinary action may meet the waiver criteria as well.
- **Status** – **DCA-20-91** extends the temporary waiver of continuing education requirements and payment of required fees for individuals seeking to restore a retired/inactive license until July 1, 2021, or when the State of Emergency ceases to exist, whichever is sooner. DCA 20-91 may be amended as circumstances require.

### Colorado

- “These emergency provisions, ordered by Governor Polis, will enable providers from out of state, those not currently practicing - such as retired or semi-retired professionals, or those whose license may have expired to provide much-needed support to our health care system.”
- Suspension of requirement under § 12-240-118(1), C.R.S., that requires a physician to have been on inactive status for not more than two years prior to receiving a pro bono license.
- **Status** – Active, currently scheduled to expire March 17, 2021 per EO D-2021-045.

### Connecticut

- The Department of Public Health seeks healthcare professionals to volunteer their services: DPH is asking healthcare professionals, such as retired nurses and doctors, to consider volunteering their services at a medical facility in Connecticut. Those willing to volunteer should fill out the online form located at ctresponds.ct.gov, and their information will be reviewed by staff at DPH who will connect the volunteer to a location in need.
- **Status** – Active during the COVID-19 emergency according to CT Responds; currently scheduled to expire April 20, 2021 per 1/25 announcement.

### Delaware

- All physicians, pharmacists, respiratory therapists, physician assistants, paramedics, emergency medical technicians, practical nurses, professional nurses, advanced practice registered nurses, and nursing assistants who have held an active Delaware license or certification within the last five years, which is now inactive, expired, or lapsed, may provide healthcare services in Delaware, so long as that license was active and in good standing for the duration of the five-year period prior to the date it went inactive, expired or lapsed...
- Any out-of-state health care provider, inactive health care provider, or qualified person appointed pursuant to this order shall be considered a public employee.
- An individual must be registered with the Medical Reserve Corps before they may be activated to provide healthcare services as a volunteer...
- **Status** – Active, until end of Delaware State of Emergency (currently scheduled to expire February 24, 2021 per 11th Extension of State of Emergency.)

### Florida

- In an effort to ensure that all Floridians have access to licensed health care providers the Florida Department of Health will temporarily reactivate unencumbered inactive licenses for those who make a request through the Department as provided for in section 381.00315(1c)3., Florida Statutes... Inactive medical doctors, osteopathic physicians, physician assistants... will have the option to temporarily reactivate their inactive license for a period of 90 days to assist during the public health emergency due to COVID-19... A license that is reactivated under this provision will return to inactive status when the public health emergency ends or before the end of the public health emergency if the State Surgeon General determines that the health care practitioner is no longer needed.
- **Status** – Active, currently scheduled to expire February 27, 2021, according to EO 20-316.

### Georgia

- The Georgia Composite Medical Board is authorized to grant temporary licenses to physicians who apply for a temporary medical license and are currently licensed as a

Maine

- [3/20 EO] C. All physicians, physician assistants and nurses who have retired in good standing in this State within two years of this date [3/20/20] who have no disciplinary or adverse action in the last 10 years... shall have their licenses immediately reactivated upon request and such license shall remain valid during the state of emergency. License application fees... are waived.
- Allow the expedited licensure (at no cost) of qualified physicians and physician assistants that have retired within two years to provide assistance for the duration of the emergency.
- [MDs]: Applicants must have a valid medical license or physician assistant license in another state that remains valid for the duration of the emergency license (100 days) or have retired their Maine medical license or physician assistant license within the past two years. Applicants who have disciplinary or adverse action in the past ten years involving loss of license, probation, restriction or limitation do not qualify for licensure.
- [DOs/PAs]: If you have been disciplined by a licensing Board within the last 10 years and that discipline included practice restrictions, limitations, probation or the loss of your license, you do not qualify for this license; You must have a valid license, in good standing, in another state which will remain valid for a minimum of 90 days from the issue of this license or, you must have retired within the last 24 months (both DOs and PAs).
- **Status** – Active for the duration of the public health emergency [Governor Mill’s Executive Order], currently scheduled to expire March 18, 2021, per 2/17 Proclamation.

Maryland

- V. Inactive Practitioners – A) Any inactive practitioner may, at a health care facility in Maryland, engage in activities that would have been authorized under his/her inactive license without first reinstating his/her inactive license, if: i) qualified supervisory personnel at the health care facility reasonably conclude that the inactive practitioner can competently engage in such activities; ii) doing so is necessary to allow health care facility to meet required staffing ratios or otherwise ensure the continued and safe delivery of health care services... 8) The Secretary, ... are ordered to expedite all requests from inactive practitioners to reinstate inactive licenses.
- The Board is suspending the requirement that licensees on inactive status to apply for and meet requirements to reactivate the license while working at a healthcare facility. Inactive Maryland licensees are not required to apply to the Board for reactivation of their license during the state of emergency while working at a healthcare facility.
- Re: Maryland Medicaid - Enroll Providers with Expired Licenses or Licenses from Out of State: Maryland Medicaid will not enforce the COMAR 10.09.36.02 requirement to have an active license on file to receive payment for services during the state of emergency. Maryland Medicaid will permit enrollment for an individual who has an expired Maryland license or out-of-State license, as long as there is no apparent Board sanction.
- **Status** – Active until end of Maryland State of Emergency, per March 16 executive order, currently scheduled to expire March 21, 2021 per 2/19 Proclamation.

Massachusetts

- Individuals who have within the last ten years held a license to practice as a health care provider that was issued by a Massachusetts licensing authority, including but not limited to a state agency, a board of registration or division with licensing authority within a state agency, and whose license, registration, certification or authorization has expired, lapsed or been retired but is not revoked, suspended, surrendered or subject to any non-disciplinary restriction shall have their licenses immediately renewed or reactivated upon request, notwithstanding the applicant’s completion of continuing education, or reactivation requirements, and shall remain valid until 90 days following the termination of the state of emergency.
- **Status** – Waivers expired October 1, 2020. The 4/3 MDPH Order was rescinded by COVID-19 Order No. 41, and license reactivation applications ceased June 26, 2021.

Michigan

- In reviewing claims of exemption for licensure under this provision the Department would consider all the relevant circumstances, including the following information: Individuals who were licensed as a health professional but have been retired for five or less years may be eligible to provide services and practice in his/her previously licensed profession under this provision to assist health care providers during the COVID-19 response and while the State of Emergency is in effect.
- The governor and her team have called on retirees, volunteers and others to help care for the growing number of COVID-19 patients.
- The order also empowers LARA to ensure an adequate supply of care providers during the emergency by granting the department additional flexibility in its decisions about licensing, registration, and workflow requirements.
- **Status** – Active through the COVID-19 emergency, which expired October 27, 2020 per EO 2020-186, and has not been renewed, with the state supreme court ruling the Governor’s authority unconstitutional October 12. (Though EO 2020-150 explicitly rescinded the waiver

<td>The second effort creates a new expedited license reactivation process for Administrative Medicine, Inactive, Lapsed, and Retired physicians and PAs who have been in active practice within the previous three years and who ended their clinical practice in good standing with the Board. <strong>Emeritus and Locum Tenens physicians and PAs – current administrative restrictions are lifted during this emergency. (A) Emeritus licensees are no longer restricted to volunteer practice only. During this emergency, they may receive payment for their medical care. (B) Locum Tenens licensees are no longer limited to 240 days/biennium of practice in Oregon. During this emergency, they may practice indefinitely in our state.</strong> Administrative Medicine/Inactive/Lapsed/Retired physicians and PAs – a new expedited reactivation process is in place during this emergency. (A) To qualify, a licensee must have been in active clinical practice within the previous three years and must have been in good standing at the time the Oregon license status became Administrative Medicine, Inactive, Lapsed, or Retired. (B) To apply, submit the Emergency Reactivation Application and supplemental materials. <strong>Status – Active, until end of Oregon State of Emergency, currently scheduled to expire March 3, 2021 per EO 2021-07.</strong></td>

<td>State Board of Medicine licensees who are in active/retired status for less than four years can apply for reactivation of their license. Their continuing education (CE) requirements and license reactivation fees will be suspended. This measure allows retired/inactive MDs, physician assistants, respiratory therapists and perfusionists to become active until December 31, 2020. If a licensee wishes to continue practicing beyond Dec. 31, 2020, the licensee will need to renew the active-unrestricted license and meet all current requirements at that time... State Board of Osteopathic Medicine licensees who are inactive/retired status for less than four years can apply for reactivation of their licenses. Their CE requirements and license reactivation fees will be suspended. This measure allows retired/inactive Doctors of Osteopathic Medicine (DOs) to become active unrestricted until Oct. 31, 2020. <strong>[12/21/20 Update] - On Dec. 21, 2020, the State Board of Medicine extended the reactivation waivers and expiration deadlines for MD licensees. If an individual has already reactivated their license pursuant to the prior reactivation waivers but is unable to meet the requirements for renewal prior to the deadline, that individual may continue to practice after Dec. 31, 2020, and must renew the license by the extended deadline of March 31, 2021.</strong> For eligible individuals who have not yet reactivated their licenses but want to assist during the pandemic, the processing of expedited license reactrations will resume after Dec. 21, 2020, for Board of Medicine practitioners whose license is either &quot;active/retired&quot; or &quot;inactive/expired&quot; for at least three months but no more than four years. These individuals will receive a license with an expiration date of December 31, 2022; however, it will be the responsibility of the licensee to complete any required continuing education by June 30, 2021. <strong>Status – Active, for MDs that have already reactivated their licenses until March 31, 2021 (unless renewed). For MDs that apply after December 21, licenses expire December 31, 2022. DO temporary licenses expired October 31, 2020.</strong></td>

| Tennessee             | • The relevant provisions of Tennessee Code Annotated, Titles 63 and 68, and related rules are hereby suspended to the extent necessary to give the Commissioner of Health the authority to grant a license, certificate, or registration to a healthcare professional, who has been out of practice for a period of time without requiring that individual to demonstrate continued competency or submit to an interview before a licensing board or other licensing authority, provided that the individual satisfies all other requirements for licensure, certification, or registration.  
  • **Status** – Active, currently scheduled to expire February 27, 2021 per EO 73. | Executive Order 20 | State Resource Page |
| Texas                 | • Gov. Abbott directed the Texas Medical Board (TMB) and the Texas Board of Nursing (TBN) to fast-track the temporary licensing of out-of-state physicians, physician assistants, certain retired physicians, nurses, and other license types.  
  • Texas resident retired physicians seeking a return to active status whose license has been placed on official retired status for **less than four years** are encouraged to apply for licensure to help during the pendency of this disaster. The retired status exempts physicians from the registration process, registration fee, and CME. The following restrictions apply to physicians whose licenses are on retired status: (1) the physician cannot engage in clinical activities or practice medicine in any state, (2) the physician cannot prescribe or administer drugs to anyone, nor may the physician possess a Drug Enforcement Agency controlled substances registration; and (3) to be eligible for retired status, a physician's license cannot be under investigation, under a Board order, or be otherwise restricted.  
  • **Status** – **Active, until end of Texas State of Emergency**, which is currently scheduled to expire March 6, 2021 per 2/4 Proclamation. | Article re: Re-licensing | TMB Guidance | License Reactivation Application | State Resource Page |
| Utah                  | • If a healthcare professional's former Utah license to practice expired or lapsed while in good standing, the professional may obtain expedited licensure in their profession by submitting a regular application for renewal or reinstatement of licensure.  
  • Many other healthcare professionals who were formerly licensed in Utah or in another U.S. state or territory, whose license was unrestricted and in good standing, may apply for a volunteer health care practitioner license to work exclusively as a volunteer at a qualified location ( clinic, hospital, church, etc.). These professionals would work under a delegation of service agreement with an actively licensed supervising professional.  
  • **Status** – Active, until end of Utah State of Emergency, currently ongoing per 10/14 DOH Public Health Order. | DOPL Guidance | DOH Orders and Directives | State Resource Page |
| Vermont               | • MDs, physician assistants, and podiatrists who meet all the criteria below can be deemed to be licensed to practice in Vermont for practice in the following circumstances: (1) Providing remote services by telemedicine (note that this refers to “telemedicine” in a generic sense, following the guidance in the emergency law and advisories issued by Vermont agencies and federal authorities). (2) As part of the staff of a licensed facility in Vermont.  
  • Deemed License for Vermont Retirees – those who retired from practice within the last 3 years and let their license lapse are also eligible to practice under the “deemed” framework... limited to telemedicine or to practice with the staff of a licensed facility in Vermont. Your license must have been in good standing when you retired and not have subsequently been subject to discipline. You need only to submit the notice telling us who you are and providing contact information and where you will be practicing.  
  • Those who do not qualify to be deemed licensed may apply for an emergency license. There is no fee for an emergency license and the process to apply involves much less than our normal licensing process. Emergency licenses will be valid for 90 days or the duration of the declared emergency, whichever is shorter, but may be reissued. The groups who would need to get an emergency license (because they cannot be deemed licensed) are:... (2) Retirees who retired more than 3 years ago but less than 10 years ago. All retirees who fall into this group must obtain an emergency license in order to practice.  
  • The legislature passed emergency legislation that was signed by Governor Scott on March 30, 2020 that allows retired Vermonter s and those with expired licenses to return to the workforce to help in a state of emergency... [until] March 31, 2021.  
  • **Status** – Active until March 31, 2021 per VT H. 960. | Med Board Guidance | Deemed License Application | Emergency License Portal | VT H. 960 | State Resource Page |

| Virginia | During the period in which the Governor’s Declaration of Emergency is in effect, the Board of Medicine will waive the regulations relating to fees and continuing education for reinstatement or reactivation of licensure for doctors of medicine, osteopathic medicine, physician assistants, and respiratory therapists who held an unencumbered, active license within the past four years.  
- A. A practitioner whose license has been lapsed for two successive years or more and who requests reinstatement of licensure shall: 1. File a completed application for reinstatement; 2. Pay the reinstatement fee; and 3. Provide documentation of having completed continued competency hours equal to the requirement for the number of years, not to exceed four years, in which the license has been lapsed.  
- B. An inactive licensee may reactivate his license upon submission of the required application, payment of the difference between the current renewal fee for inactive licensure and the current renewal fee for active licensure, and documentation of having completed continued competency hours equal to the requirement for the number of years, not to exceed four years, in which the license has been inactive.  
- C. If a practitioner has not engaged in active practice in his profession for more than four years and wishes to reestablish or reactivates his license, the board may require the practitioner to pass one of the following examinations...
- **Status** – Active, waiver remains in full force and in effect for the duration of [Amended EO 51](https://www.gov.wv.gov/files/JeffersonComparison.pdf) (until Gubernatorial recission/end of the Virginia state of emergency). |
| Washington | **Status** – Active throughout COVID-19 emergency, per [Proclamation 20-05](https://www.gov.wa.us/PROCLAMATIONS/2005/Proclamation-20-05.htm). |
| Washington, DC | **Status** – Active, currently scheduled to expire March 31, 2021 per [Mayor’s Order 2020-127](https://www.washingtondc.gov/orders/mayor-2020-127). |
| West Virginia | **Status** – [Active until the end of the COVID-19 emergency](https://www.gov.wa.us/PROCLAMATIONS/2005/Proclamation-20-05.htm). |

<td><strong>VI. Recently Expired Credentials or Licenses.</strong> (A) DSPS is directed to assess its records to identify healthcare providers with recently lapsed license who would be eligible for renewal... (B) The following administrative rules are suspended: ... Renewal of a lapsed license within five years of expiration... “fulfillment of the continuing education requirements” is suspended. Nothing about this suspension should be construed to apply to a licensee who has unmet disciplinary requirements or whose credential has been surrendered or revoked.</td>
<td><strong>New rule from an October 23 BOM meeting:</strong> Provide an expedited process for physicians and physician assistants to temporarily reactivate lapsed or inactive licenses during a declared public health emergency. This includes a “tail period” for the reactivation to last 45 days after termination of the public health emergency to ensure continuity of care. <strong>Status</strong> – <strong>Active</strong> until 45 days after the conclusion of the COVID-19 emergency per 10/23 BOM rule.</td>

| On April 15, Gov. Evers signed AB 1038, which, among other things, authorized former health care providers to obtain a temporary credential granted by DSPS and provide health care services for which they have been previously licensed or certified. Under the bill, DSPS may grant a temporary credential to a person who applies and was at any time during the previous five years, but is not currently, any of the following, if the person’s credential was never revoked, limited, suspended, or denied renewal. | **Executive Order #16**
**AB 1038**
**Wisconsin DSPS Guidance (re: recission of EOs 16 &20)**
**Wisconsin DSPS Memo**
**Emergency Order #2 (reinstiting waivers)**
**State Resource Page** |
| Re: recission of waivers – [Em. O 16; 3/27/20] This Order is effective immediately and shall remain in effect for the duration of the public health emergency as declared in Executive Order #72 [3/12/20], including any extensions. On May 11, 2020, EO 72 expired and was replaced by EO 82, which did not adopt EOs #16 & #20 and thus an out-of-state practitioner is not able to work in Wisconsin through Interstate Reciprocity. | **[Wisconsin DSPS Memo] - The legislature did not extend the public health emergency and it ended May 11, 2020. Therefore, your temporary license will expire on June 10, 2020. This temporary license cannot be renewed.**
**[October 1, 2020 Update] – Reinstatement of Recently Lapsed Credentials – Any healthcare provider with a license that has recently lapsed (within 5 years of expiration) who applies to DSPS for reinstatement shall not be required to pay any late renewal fees, and shall not be required to fulfill lapsed continuing education requirements.**
**Status** – **Active** for the duration of the federal public health emergency declared July 23, 2020, including any renewals, or until a superseding order is issued by either the Governor or the Secretary of the Department of Health Services, per Em. Order #2. Currently scheduled to expire March 20, 2021 per EO 104. |
