

Faster, more convenient queries with customizable reporting tools

Credentialing and licensing professionals have trusted the quality of our data for more than 100 years. The Physician Data Center (PDC) provides convenient access to **board sanctions** reported on by physicians and physician assistants by our reporting entities, as well as extensive **licensure history**, **physician biographical data** and **ABMS data**. We also provide subscribers with one (1) year of state board sanctions alerts at no additional charge.

Our Sources

- All State Medical Licensing Boards
- U.S. Department of Health and Human Services
- Government regulatory entities
- A growing list of international licensing authorities, including Canada, England, Australia and New Zealand
- American Board of Medical Specialties (ABMS)
- Center for Medicare Services (CMS)

The PDC application features:

- **Instant Reporting**
Immediate access to query results
- **Continuous Alert Monitoring**
Multiple notification options
- **Expanded Audit Capabilities**
Comprehensive, “point in time” tracking
- **Innovative Account Management Tools**
Roster management with customizable reporting
